Email	dsheehy@limerickcoco.ie
Web address	www.lcc.ie
Which Type of Facility?	
Garden & Landscape Materials	Yes
In-vessel Bio waste Facility	No
Mixed Waste/MBT Facility	No
Description of Composting Facility	
<p>Our facility mainly accepts garden and landscaping material, the majority of which we take in from our three CAC's and our landfill in Gortadroma. We operate an open windrow system and currently have two full time employees working at this facility. The facility is situated on an area of concrete slab, with the relevant drainage channels for the collection of run-off. The facility has a holding tank for the collection of water run-off and this stored water is used to spray on the composting material during the composting process. This facility houses a Pezzolato S10000 shredder, Doppstadt Trommel Screen and MF Tractor for feeding these machines. Compost from this facility is offered to users of the CAC in Mungret; compost is also used by LCC and also taken by landscapers.</p>	
Feedstocks Accepted at this Facility	
Garden/landscape Materials	Yes
Brown Bin materials	No
Sewage Sludge	No
Mixed Waste/MBT Materials	No
